

Flexfence 3 Rope - Data Sheet

NCHRP350 COMPLIANT

Improving Road Safety

Specification

- NCHRP 350 Test Level 4 (TL4) compliant (8,000kg rigid truck travelling at 80 km/h and 15 degrees)
- NCHRP 350 Test Level 3 (TL3) compliant (2,000kg pick-up travelling at 100 km/h and 25 degrees)
- Rope hook and post stiffening piece improves dynamic deflection
- Posts are hot dip galvanised prior to powder-coating
- Machine swaged fittings for added durability and safety
- Available with TL3 Flexfence Terminal

Application Benefits

- Rope hook and post reinforcement provide reduced dynamic deflection
- Parallel rope system – easy to install
- Varying post spacing dependant upon working width requirements
- Provides an increased level of protection to heavy vehicles with high centres of gravity
- TL3 Flexfence Terminal designed NOT to release cables during impact
- Concrete post footings contain a plastic sleeve to facilitate rapid post repair and replacement
